COPY NO. 3. OF 3. COPIES

GENERAL PLAN OF OPERATIONS

1. The general plan of operations is to seize immediate control of all vital centers throughout the country and isolate the Capital, within which lies the largest and most effective force under the control of the present government. Following isolation of the Capital all forces will move on the Capital in a concerted drive.
2. Scheme of Manouever.
  - (a) On D-Day those forces outside Guatemala will launch three (3) separate attacks across the southern land frontiers and, one (1) across the eastern sea frontier, of Guatemala.
  - (b) Simultaneously, those forces within the country will initiate operations designed to harass and immobilize government forces, disrupt communications, seize control of vital military and civilian centers and, carryout executive action against specific individuals.
  - (c) Those forces crossing the land frontiers will have as their objective the establishment of the line Jutiapa - El Progreso - Salamá - Cobán. With the establishment of this line all forces will converge on the Capital.
  - (d) The force crossing the eastern sea frontier will have as its objective the capture of Puerto Barrios and the establishment of the main base of operations thereat. It will then move, by air, sea and equipment to the forces assembling in the Cobán area, and subsequently, to other forces throughout the country. Reference: Overlays in Appendix C.
